SCOPE OF PROJECT

SlNo.	Description	Specification
1	Type	Centrifuge acceleration
2	Acceleration range "g"	1-100g
3	Pay load area "mm"	1500x1500x1500mm
4	Pay load capacity "kg"	100kg
5	Radius (arm length) “mm”	750-1600mm
6	Speed range ‘rpm’	0-400 rpm
7	Speed resolution ‘rpm’	0.01 rpm (better than $\pm 0.01g$)
8	Pneumatic rotary joints	50 bar pressure max
9	Hydraulic rotary joints	Dual lines, 350 bar pressure max
10	Payload platform orientation	2 axis rotating / slip table
11	Specimen viewing	Camera (CCTV) with display & recording
12	Drive	Permanent Magnet Brushless servo motor
13	Power consumption	380/420 V, 50Hz, 3PH
14	Safety Protection	Over Load, Over/Under voltage protection, unbalanced load and trip the system.
15	Slip ring capsule configuration	1)50 conductors rated for 2A 2)20 conductors rated for 5A 3) 10 conductors rated for 10A Mechanical Brake + eddy current brakes
16	Brake	
17	Controller	
		External PC
